In these fantastic events you will see our must-have products as well our new products. Also we will present to you our new partnerships Get to know them and prepare to discover all about these fantastic brands!

## COUTO

It was in 1918 that the company Flôres e Couto was born in Porto, which years later (1931), was known as Couto, Lda. It is at this point that the management of the firm becomes the sole responsibility of Alberto Ferreira do Couto. In 1932, Alberto Ferreira Couto created, with the help of a dentist friend, the "Medicinal Couto Pasta", in order to combat the problems in the gums that were caused by syphilis. Their original design and famous retro packaging left a mark on Portuguese society of the 20th century and national fame came from the famous television spot and original ads.

Today, the Couto family continues to lead the company, now under the management of Alberto Gomes da Silva, the nephew of the founder, succeeded him after his death in 1974. At the same time, in 2004, and already with the designation of Couto, SA, the company left its old facilities in Largo de São Domingos, in Porto, installing itself in the industrial complex of Utic in Vila Nova de Gaia. River. Faithful to tradition and ancient recipe, the folder remains produced semiartesanal way, without the use of animal ingredients and always in order to give your products the best quality through strict control

## CAROLINA CURADO

The brand is born in 2012, with the desire to deepen the passion for Jewelry. Well-known since its inception, the approach in Jewelry is influenced by organic forms and the Natural world, associating the use of less noble metals such as brass, a whole set of floral and animal decorative elements, often using the use of raw materials such as pearls, minerals, corals and zircons. The dedication is in the whole process, from the creation to the final finishes, with all the small details that make a piece. The choice of the natural elements, developed with high detail and concern in the creation of pieces with a characteristic and original design make the brand a reference at national level.

## MADE IN YOUTHLAND

Born in Lisbon, the creator believes that has a great sense of curiosity to discover the world's beauty. In the past, they were courageous to explore new lands and dive into the unknown and when she created Made in Youthland®, she wanted to share that state of mind. Creating something different, something, hopefully, unique and meaningful.

Made in Youthland hit the market almost two years ago and came with the complete package. On the side of the ingredients is a balance between natural origin and synthetics. The seconds are responsible for the penetration of the first into the skin. At the base of the formulas are the great grape seed and the Kakadu plum, the Australian fruit with the highest concentration of vitamin C in the world. The process was complicated, but the formulas are simple.
