## The Maison Valentina Virtual Showroom

### An immersive journey through impressive décor

With the paradigm shift that we have been witnessing in the past few months, adaptations were necessary. The major interior design tradeshows were cancelled and showrooms saw their doors temporarily closed. Will this restrain us from appreciating the wonders of window-shopping furniture or of being up to speed with the latest trends? Maison Valentina wanted to make sure that it does not.

As such, an enveloping **virtual showroom** through the esteemed brand's collection was created using real product images, so as to perfectly portray the astounding quality of the pieces. Maison Valentina invites you to embark on this inspiring journey, with a solid promise that you won't regret it.

The virtual tour begins in the front yard of the lovely minimal modern Maison Valentina house. Within, the house holds a large percentage of the products offered by the brand. As you step through the virtual door, you are greeted by some of Maison Valentina's most iconic pieces: the Eden Freestanding, the Venice Mirror and the Matheny Wall Lamp. This trio serves as an amuse-bouche for all the amazing décor to come.

Browsing through the dramatically lit entrance hall, one is met by a variety of pieces belonging to the ATO Collection, namely, mixer taps and vessel sinks. Maison Valentina's ATO Collection gathers four product categories: taps, vessel sinks, surfaces and suspension cabinets - with the ultimate goal of allowing for a complete bathroom transformation without any structural reforms. This collection serves as a fantastic example of how Maison Valentina can elevate any bathroom through its thought-out, high-quality offer.

However, throughout the tour, Maison Valentina proves itself further as a versatile and worldly bathroom brand by showcasing several of its products, both in the tens of bathroom ambiances presented - which include a dashing marble bathroom - and in the individual displays found all along the hallways, demonstrating how the pieces can be mixed, matched, and even customised in countless ways, creating an opulent and unique look at every turn.

All the products are signalled, allowing you to discover additional information about each piece as you go along the tour. The virtual showroom allows you to navigate freely, making it possible to enter any room that you may cross and to zoom in as much your heart desires, so you can admire the handmade detailing up-close.
